# For Parents

**After completing one class you will;**

**Know the Risks** – Protect your family with knowledge and skill.

**Know what's going on** - Monitor Your Childs Computer from Anywhere (as if beside them).

**Learn the Lingo** – You will have a simple-to-follow up-to-date guide of all internet chat acronyms and initials.

**Review with your child** – provide use reports you can review with your child.

**Know who their talking to** – Have the information you will need to provide law enforcement if needed.

**Stop the behavior** – Shut down any conversation or connection immediatly – before it goes too far or is too late.

NETvrything is your new local computer resource. As a father of 4, given today's environment I extend this opportunity to you – our neighbors.

# For Kids

The only place in Washington where your kids get to build their own computers.

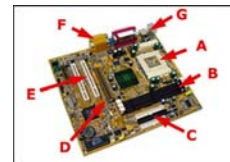

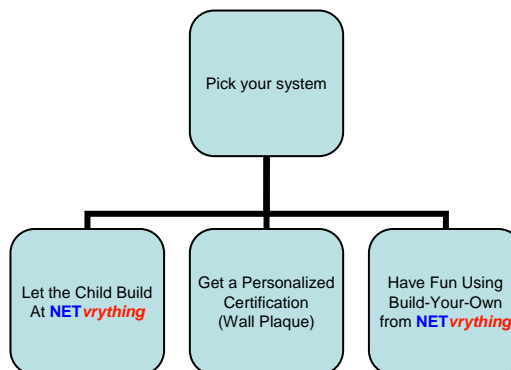

**(FREE CLASS!!!!)**

You select their system – they put it together. (under 12 must be accompanied by an adult)

**Build Confidence  
Learn by Hands-On**

**Have Fun  
Get Certified**

**Never replace your computer  
– just buy and install your own parts!**
